

Product

Classic Krok

Published 2025-09-16

Med utgångspunkt i hatt- och skohyllan Classic har designstudion Kauppi & Kauppi tagit fram en hel familj baserad på den klassiska designen från 50-talet. Genom att återanvända material och mått från originalet passar de nya fristående produkterna naturligt ihop, samtidigt som de pekar ut en ny riktning. Knoppen, eller kroken, var det första elementet som adderades till familjen. Den är utformad som en användbar och estetisk detalj som sömlöst binder samman den nya kollektionen.

Contents Accepted

0. Declaration of Contents

Supplier Certificate of Substance Content and Concentrations corresponding to assessment against level Accepted for each property criterion

Environmentally hazardous substance (H400): = 2.5 % of the substance(s), if M=1 (otherwise concentration * M-factor = 2.5 %) is reported

Environmentally hazardous substance (H410): = 0.25% of the substance(s), if M=1 (otherwise concentration * M-factor = 0.25%) is reported

Environmentally hazardous substance (H412): = 2.5% (rec) of substance(s) is reported but a supplier Certificate of Substance Content and Concentrations is missing

Specifically designated substances and substance groups: Contains particularly persistent substances PFAS), does not fulfil the requirements for "recommended"

Lifecycle Accepted

1. Constituent materials and raw materials

<50% renewable raw materials

Recycled material content <50%

2. Manufacture/production of the article

Data on emissions during production is not available.

Data on energy consumption is not available.

3. Packaging

The packaging can be recycled or energy recovered from it.

5. Refuse and demolition

Reutilisation/reuse is possible for =70% of the product.

Material recovery and recycling is possible for =70% of the product.

The product does not give rise to hazardous waste during use/building construction.

End-of-service-life items are not classified as hazardous waste during demolition/dismantling.

6. Emissions to indoor air

Not relevant

Sustainable supply chains

Has your company or organisation relevant certificates regarding Social Responsibility?

Yes , ISO 14001, ISO 9001

Has your company or organisation a written Policy or a Code of Conduct dealing with Social Responsibility in Supply Chain?

Yes

What is included in the policy/Code of Conduct?

FN:s allmänna förklaring om de mänskliga rättigheterna, FN:s barnkonvention, artikel 32, ILO:s åtta kärnkonventioner (barnarbete, tvångsarbete, diskriminering, föreningsfrihet), Arbetsrättslagstiftning, Arbetsmiljö, Miljö, FN:s konvention mot korruption

Is the policy/Code of Conduct made available to employees and distributed in the product's supply chain?

Yes

Is someone in your company's management team appointed responsible for work and routines regarding Social Responsibility?

Yes

Is there a procedure developed to follow up the product's supply chain with regard to Sustainable Supply Chains?

Yes

What is included in the procedure?

Kartläggning – av produktens leverantörskedja, Riskanalys - identifiering av risker i produktens leverantörskedja, Handlingsplan – hur identifierade risker ska hanteras, Uppföljning – av identifierade risker samt av varans leverantörer/underleverantörer

Ind 9

The BSAB code is not covered by MB, but meets requirements corresponding to GOLD level.

Ind 15

The BSAB code is not encompassed within MB! (Product has documentation equivalent to an e-BVD, which corresponds to the GOLD level in MB 4.0).

3.0 / 3.1 / 3.2

Ind 13

The BSAB code is not encompassed within MB! (Product has documentation equivalent to an e-BVD, which corresponds to the GOLD level in MB 3.0).

Ind 14

The BSAB code is not encompassed within MB, but the product does not contain any phase-out or risk reduction substances, which is equivalent to GOLD. Note! Emissions are not taken into consideration!

2.1 / 2.2**Ind 14**

The BSAB code is not encompassed within MB, but the product has a public and full BVD3, which is equivalent to GOLD

Ind 15

The BSAB code is not encompassed within MB. The product does not contain any phase-out substances according to KEMI's definition above the classification limits, which corresponds to the GOLD standard.

BREEAM-SE

BREEAM® SE

2023 6.0**Mat07**

The BSAB code is not covered by BREEAM, but the product does not contain phase-out substances (according to the KEMI definition of Phase-out substances), EDS Cat1/Cat2/EDC-SIN) above classification limits and does not contain candidate substances above 0.1% by weight, which corresponds to Exemplary level.

2017 v.1.1**Mat07**

The BSAB code is not covered by BREEAM, but the product does not contain phase-out or risk reduction substances (according to the KEMI definition of Phase-out and Risk Reduction Substances), and EDS Cat1/Cat2/EDC-SIN which corresponds to Exemplary level.

2013 v.2.0**Mat08**

The BSAB code is not encompassed within BREEAM, but the product does not contain any phase-out substances above the classification limits.

Taxonomy

The taxonomy is an EU standard for systematically classifying economic activities based on sustainability criteria. It promotes sustainability by categorizing businesses according to their environmental and social impact, facilitating the assessment of sustainability performance, and supporting investment decisions for a green transition.

Byggvarubedömningen has participated in the national efforts for a Swedish industry adaptation of the taxonomy under the leadership of Byggföretagen. What we present is in accordance with this industry agreement. Link to the Taxonomy: <https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32020R0852>

Product not included

The product is not included in the requirements of the EU Taxonomy Appendix C and information about emissions.
