Endless Krok

Published 2025-09-11

Aluminium är en metall som kan återvinnas i all oändlighet utan att materialet förlorar i kvalitet. Det var inspirationen när Anna von Schewen ritade kroken Endless, tillverkad i just återvunnen aluminium. Kroken har två öglor som på ett smart sätt sätts samman, gömmer infästningen och bildar ett sömlöst band. På den större öglan hängs tröjan eller jackan och dess runda former skyddar plagget från märken i nacken.

Assessment

Total

Accepted

Produkten har egenklassificerats för ingående ämne(n). I de fall egenklassificeringar berörs av Byggvarubedömningens kriterier har bedömning gjorts på dessa.

Contents

Accepted

0. Declaration of Contents

Supplier Certificate of Substance Content and Concentrations corresponding to assessment against level Accepted for each property criterion

Environmentally hazardous substance (H410): = 0.25% of the substance(s), if M=1 (otherwise concentration * M-factor = 0.25%) is reported

Specifically designated substances and substance groups: Contains particularly persistent substances PFAS), does not fulfil the requirements for "recommended"

Lifecycle

Recommended

1. Constituent materials and raw materials

Recycled material =50 %, the material referred to has passed the consumer stage (post-consumer)

2. Manufacture/production of the article

Data on emissions during production is not available.

Data on energy consumption is not available.

3. Packaging

The packaging contains recycled material and can be recycled or energy recovered from it.

5. Refuse and demolition

Reutilisation/reuse is possible for =70% of the product.

Material recovery and recycling is possible for =70% of the product.

The product does not give rise to hazardous waste during use/building construction.

End-of-service-life items are not classified as hazardous waste during demolition/dismantling.

6. Emissions to indoor air

Not relevant

Sustainable supply chains

Has your company or organisation relevant certificates regarding Social Responsibility?

Yes , ISO 14001, ISO 9001

Has your company or organisation a written Policy or a Code of Conduct dealing with Social Responsibility in Supply Chain?

Yes

What is included in the policy/Code of Conduct?

FN:s allmänna förklaring om de mänskliga rättigheterna, FN:s barnkonvention, artikel 32, ILO:s åtta kärnkonventioner (barnarbete, tvångsarbete, diskriminering, föreningsfrihet), Arbetsrättslagstiftning, Arbetsmiljö, Miljö, FN:s konvention mot korruption

Is the policy/Code of Conduct made available to employees and distributed in the product's supply chain?

Yes

Is someone in your company's management team appointed responsible for work and routines regarding Social Responsibility?

Yes

Is there a procedure developed to follow up the product's supply chain with regard to Sustainable Supply Chains?

Yes

What is included in the procedure?

Kartläggning – av produktens leverantörskedja, Riskanalys - identifiering av risker i produktens leverantörskedja, Handlingsplan – hur identifierade risker ska hanteras, Uppföljning – av identifierade risker samt av varans leverantörer/underleverantörer

Ind 9

The BSAB code is not covered by MB, but meets requirements corresponding to GOLD level.

Ind 15

The BSAB code is not encompassed within MB! (Product has documentation equivalent to an e-BVD, which corresponds to the GOLD level in MB 4.0).

3.0 / 3.1 / 3.2

Ind 13

The BSAB code is not encompassed within MB! (Product has documentation equivalent to an e-BVD, which corresponds to the GOLD level in MB 3.0).

Ind 14

The BSAB code is not encompassed within MB, but the product does not contain any phase-out or risk reduction substances, which is equivalent to GOLD. Note! Emissions are not taken into consideration!

2.1 / 2.2

Ind 14

The BSAB code is not encompassed within MB, but the product has a public and full BVD3, which is equivalent to GOLD

Ind 15

The BSAB code is not encompassed within MB. The product does not contain any phase-out substances according to KEMI's definition above the classification limits, which corresponds to the GOLD standard.

BREEAM-SE

BREEAM® SE

2023 6.0

Mat07

The BSAB code is not covered by BREEAM, but the product does not contain phase-out substances (according to the KEMI definition of Phase-out substances), EDS Cat1/Cat2/EDC-SIN) above classification limits and does not contain candidate substances above 0.1% by weight, which corresponds to Exemplary level.

2017 v.1.1

Mat07

The BSAB code is not covered by BREEAM, but the product does not contain phase-out or risk reduction substances (according to the KEMI definition of Phase-out and Risk Reduction Substances), and EDS Cat1/Cat2/EDC-SIN which corresponds to Exemplary level.

2013 v.2.0

Mat08

The BSAB code is not encompassed within BREEAM, but the product does not contain any phase-out substances above the classification limits.

Taxonomy

The taxonomy is an EU standard for systematically classifying economic activities based on sustainability criteria. It promotes sustainability by categorizing businesses according to their environmental and social impact, facilitating the assessment of sustainability performance, and supporting investment decisions for a green transition.

Byggvarubedömningen has participated in the national efforts for a Swedish industry adaptation of the

taxonomy under the leadership of Byggföretagen. What we present is in accordance with this industry agreement. Link to the Taxonomy: <https://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:32020R0852>

Product not included

The product is not included in the requirements of the EU Taxonomy Appendix C and information about emissions.
